

I feel I should be allowed to chose the ISP that I want. I am quite satisfied with the ISP that I have use for the last 9 years, I also resent the fact that anyone could tell me I have to go with Verizon or Quest, Just because of my adress. I feel the phone company and the cable company make enough money as it is. Phone co and Cable companies are out for the buck and not for my best interest. I WANT TO CHOSE MY ISP. Janice
